

Unit Number Signs For Self-Storage Facilities

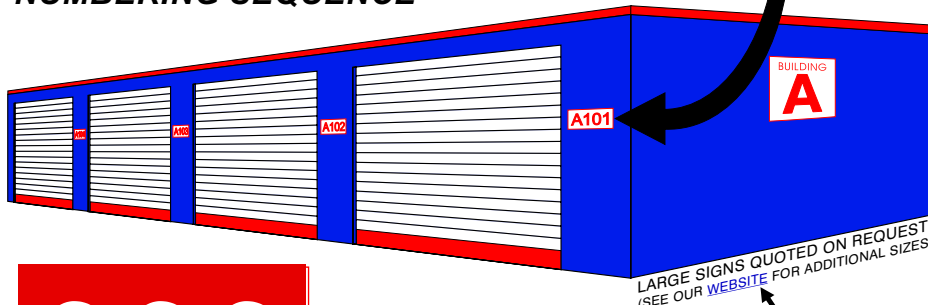

ON THE WEB AT
www.UnitNumber.com

YOU CHOOSE:

- SIZE
- COLOR
- MOUNTING METHOD
- NUMBERING SEQUENCE

Our signs are made from a 2-ply plastic suitable for exterior purposes. The 1/16" thick material can be any size and then engraved with your numbering sequence. These numbers will not fade or wear, because they are actually cut into the plastic, giving you a lifetime lasting sign. Pricing includes up to four digits and a "dash", if needed. To determine the size of your signs, we recommend deciding what size number or letter is necessary at a particular distance and then, how many digits per sign. For example, a 2" digit can easily be read from 50 feet and if you have four digits in your sign, you'll need about a 3"x6" sign. Below are some scale samples.

LARGE SIGNS QUOTED ON REQUEST
 (SEE OUR [WEBSITE](http://www.UnitNumber.com) FOR ADDITIONAL SIZES)

MOUNTING

Signs can be hung using one of these methods:

- ADHESIVE:** Use silicone or construction adhesive, available at any hardware store. You may want to hold the sign in place, while it dries, with a small piece of masking tape.
- SCREWS:** Use sheet metal screws with or without plastic or masonry anchors. You may want to use rust-proof screws. Suggest 5/32" holes. (See pricing below)
- RIVETS:** We suggest making a template to drill your doors or walls for a pop rivet. Let us know what size rivet you'll use so we can put the proper size holes in signs.

EXAMPLES SHOWN
 25% ACTUAL SIZE

4"x6" SIGN WITH 2 1/2" CHARACTER 3"x6" SIGN WITH 2" CHARACTER 2"x4" WITH 1 1/2" CHAR. 1 1/2"x3" SIGN - 7/8" CHAR.

NOTE: IF YOU NEED HOLES OR HAVE EXTRA DIGITS IN YOUR SIGNS, YOU MAY NEED A LONGER SIGN THAN SHOWN IN ABOVE SAMPLES. (EXAMPLE: A 1 1/2"x3 SIGN WITH 4 DIGITS MAY NEED TO BE 1 1/2"x3 1/2)
